EDUCATION

Techno Engineering College Banipur   **Harbra, West Bengal**
Btech in Information Technology   **Jun 2025**

SKILLS

Technical Skills:	C,C++, Python, Java, HTML CSS, Javascript
Technologies:	MERN, GIT, GITHUB

WORK EXPERIENCE

Zidio Development   **Jigani, Bengaluru, Karnataka**
Web Development Intern: **Jul 2024 - Oct 2024**

- Collaborated with a team to develop a comprehensive job listing portal.
- Designed and implemented a robust certificate verification system.
- Contributed to the creation of a result management system to streamline academic results.
- Applied effective teamwork and communication skills to deliver high-quality software solutions.
- Gained practical experience in web development and software engineering practices.

PROJECT

Google Developer Student Clubs TECB:

- Collaborated with core members to establish the Google Developer Students Club (GDSC) at TECB.
- Organized and led workshops, events, and hackathons to promote learning and development.
- Fostered a community of student developers and facilitated knowledge sharing.
- Coordinated with Google Developers to align club activities with industry standards.
- Successfully increased student engagement and participation in tech-related initiatives.

Portfolio Website: <u>Github-Repository</u>

- Built a portfolio website using HTML, JavaScript, and CSS.
- Utilized Visual Studio Code for efficient development and debugging.
- Managed source code and version control with GitHub.
- Deployed the website using GitHub Pages for seamless online accessibility.
- Ensured the website is fully functional and responsive across various devices and browsers.

EXTRA-CURRICULAR ACTIVITIES

•Acted as a college administrator, serving as a representative and communication liaison between faculty and students
•Organized multiple college festivals, coordinating logistics, events, and volunteer activities.
•Served as an anchor for various college fests, engaging the audience and facilitating events.
•Core member of Google Developer Student Clubs (GDSC), contributing to tech-related events and workshops.

VISION

As a proactive and engaged individual, I envision leveraging my technical expertise in web development and machine learning, along with my strong communication and leadership skills, to drive innovation and collaboration within the tech community. My experiences as a college administrator, organizer, anchor, and GDSC core member have equipped me with a unique blend of technical and interpersonal abilities. I aim to foster environments that encourage learning, creativity, and growth, ultimately contributing to the advancement of technology and its positive impact on society.
